

Transforming Our Lives The Art of Writing Memoir

A One-Day Mount Vernon Writing Seminar with Page Lambert

Picasso believed that the true artist could paint a yellow spot and transform it into the sun. Our lives, too, are worthy of such transformation. During this one-day seminar we will explore the craft of memoir, discussing how thematic threads weave together the tapestry of our lives, how synchronicities create meaning from chaos, how to write reflection and portray events, and how to practice the art of discernment.
